

PODCAST

The DARE to Podcast program will guide participants from six countries to create original, socially impactful podcasts. These podcasts will amplify youth voices, foster intercultural dialogue, and promote creativity and inclusion through powerful storytelling.

Two Associate Meetings

Promimpresa and MasterPeace held a meeting with their associate partners to review project progress, reflect on achievements so far, and discuss the expected impact and next steps. MasterPeace also presented the idea of developing a dedicated app to enhance participant engagement, streamline project activities, and amplify the reach and visibility of the project's outcomes.

10 New app proposals thanks to training

After an intensive training process, 60 young participants from across partner countries have developed 10 mobile apps.

The apps will be presented at the upcoming DARE 4.0 Summit — showcasing youth-driven digital solutions for social impact!
